Table 1 : Log Measurement

| PRODUCT | LENGTH | DIAMETER |
|---------|--|---|
| Quota | Actual length in decimetres rounded down to the next whole decimetre | Actual centre diameter underbark in centimetres rounded down to the next whole centimetre |

1.1.2 Sale by weight

Ex Quota and Residue logs are to be sold by weight. A certified weighbridge will be used to determine the weight of each load.

1.2 Marking of Log Products

1.2.1 Log Product Code

The Harvesting Contractor must ensure that log products (including residue) are clearly marked at the large end using paint or crayon (where applicable) in accordance with Table 2.

Table 2 : Log Product Code

| PRODUCT | CODE |
|-------------------|-------------------------------|
| Quota | O |
| Exquota | Z |

Section 2: Delivery Dockets

Load details will be recorded on a Delivery Docket prior to removal of log products from the loading point and a copy of the Delivery Docket will be carried with the load. Delivery Dockets take the form a paper Delivery Docket from a Delivery Docket Book or electronically through the EDX system.

FCNSW will issue Delivery Docket books to the Company at cost price.

Two handwritten signatures are present at the bottom right of the page. The one on the left is a stylized signature, and the one on the right is a more cursive signature.

Completion of Delivery Dockets

2.1 Delivery dockets

The Harvesting Contractor must ensure that, prior to departure from the Loading Site, the following details are completed on the Delivery Docket:

- i) Customer/Location
- ii) Date
- iii) Time
- iv) Region
- v) State forest or lease name
- vi) Compartment no# or lease no#
- vii) Product (Where relevant)
- viii) Grade (Where relevant)
- ix) Harvest , Load and Haulage Contractor
- x) Truck Driver Name

Where logs are to be accounted for by volume, the following additional details must be recorded for each log on the load:

- Length (refer to Table 1)

- Product Code (refer to Table 2)

2.2 Receipt of Delivery

Where paper Delivery Dockets are used, dockets must be signed by the Customer and will be distributed in the following manner:

ORIGINAL – Forest Corporation Copy. This must be signed by the Customer and then returned to FCNSW. Verification of receipt is achieved through the process outlined in Section 2.4.

DUPLICATE – Customer copy. Signed copy to be retained by the Customer.

2.3 Docket Errors

In the event of a Delivery Docket error being identified prior to Delivery, or at the Delivery Site prior to the truck which delivered the load departing the site, the necessary amendment must be made on the Delivery Docket where paper dockets are used and such changes initialled by the Customer's representative and the truck driver. The customer will then submit the original docket to FCNSW. The duplicate copy of the docket must be retained by the Customer for 60 days from the date of the docket. Where the error is made on the electronic docket, the customer must send an email to Tereene.hill@fcnsw.com.au with docket number and nature of error.

Errors relating to log grade are to be treated separately as a disputed log as these changes can only be made by a FCNSW Officer (refer section 4).

2.4 Submission of Dockets

The original paper Delivery Docket and duplicate copies of the Delivery Docket must be signed with the original sent to FCNSW by the customer.

The original of any paper Delivery Dockets utilised during the month must be lodged with the Western Region, Dubbo Forestry Office on a weekly basis and **no later than the first calendar day of the following month after the monthly accounting period**, or such other times as the District Manager may direct. Paper Dockets may be faxed with originals posted as soon as possible.

Duplicate copies of paper Delivery Dockets must be retained by the Customer for a minimum of 60 days from the date of the docket, unless otherwise requested by FCNSW.

2.5 Basis of Accounts

Delivery Dockets (paper and electronic) will form the primary basis of accounts.

Docket errors are errors made on the docket that do not affect the log or load details. Disputed logs/loads are errors on the docket that do.

2.6. Calculation of volume

2.6.1. Quota

The volume of a Quota sawlog is calculated using the formula below

$$V = L \times \pi \times D^2 / 4$$

Where
V is volume in cubic metres
L is log length in metres rounded down to the next even decimetre
D is log diameter in metres

SECTION 3: SALE BY WEIGHT

3.1 Sale by Weight Using Weighbridges

3.1.1 Use of Weighbridges en route to a Delivery Site

The tare weight, gross weight and net weight are to be recorded on the Delivery Docket and a copy of the weighbridge docket is to be attached to the original copy of the Delivery Docket. Where electronic dockets are used, all weighbridge dockets are to be sent to Western Region, Dubbo Forestry Office on a weekly basis and **no later than the first calendar day of the following month after the monthly accounting period**, or such other times as the District Manager may direct.

Section 4: Disputed Logs

4.1. Disputed Logs

Section 4 only applies in cases where FCNSW makes Timber available by conducting Delivered Sales. Where the Customer is, or engages, the Harvest Contractor directly to produce Timber under their supply agreements with FCNSW the customer will be deemed to have accepted the Timber when they load it onto trucks at the Loading Site.

A disputed log is a log where the Customer disagrees with either the log details or the grade of the whole or part of the log.

The Customer, if disagreeing with log details or grade, must notify FCNSW of the disputed log within three business days of the delivery of the log.

A FCNSW Officer will inspect any disputed logs within five working days of being notified wherever practical.

Where the FCNSW Officer determines that the disputed timber fails to meet the Specifications or that there has been an error on the Delivery Docket, action as determined in Table 6 below will occur. Where the FCNSW Officer determines that the disputed timber fails to meet the Specifications and the customer refuses to accept the log, FCNSW will request the Harvesting Contractor to arrange for the log to be picked up and delivered to an alternative delivery site. Where this is not practical, FCNSW will make alternative arrangements. Any logs so redirected will require a new Delivery Docket to cover the delivery as set out in this Code. The action required is set out in Table 6.

Any dispute over a decision made by a FCNSW Officer regarding disputed logs should be referred to the District Manager for resolution.

Handwritten signature and initials, likely 'AOD' and 'WBR', in the bottom right corner of the page.
