SCHEDULE 1

Item 2 : Methodology

The following describes the method of varying the Delivered Prices:

1. Ascertain the level of each Indicator in column 1 of Part 3, expressed in dollars and cents, percentage or as an index (as the case may be) current at the time of the review (the Current Indicator Rate).
2. Ascertain the movement in each Indicator during the relevant review period by establishing the percentage increase (or decrease) in the Indicator Rate (by dividing the Current Indicator Rate (see clause 1) by the Base Indicator Rate and applying any weighting specified in column 6 to that percentage change).
3. Calculate the weighted movement across all Indicators by applying the methodology below:
 - (a) multiply the movement in each Indicator (see clause 2) by the Indicator Weighting
 - (b) the sum of the products of each calculation referred to in clause 3(a) is the weighted movement across all Indicators.
4. The weighted movement across all Indicators calculated in accordance with clause 3 is then multiplied by the Delivery Charge Weighting to determine the overall weighted movement over the Reviewed Quarter.
5. The new Delivered Prices to apply in the Quarter following the Reviewed Quarter are calculated by applying the weighted movement across all Indicators (from clause 4 above) to the current Delivered Prices.
6. For the purposes of the next quarterly rate review, ascertain new column 8 Part 3 Indicator Weightings for each Indicator by multiplying the then current column 8 Indicator Weighting for each Indicator by the movement in the relevant Indicator (see clause 2 above) over the Reviewed Quarter and then dividing the result by the weighted movement across all Indicators (see clause 3 above). This will produce a new table of Indicator Weightings for the next review which sums to 100 percent.

Part 1: Definitions and interpretation

In this Schedule unless the context indicates to the contrary:

Base Indicator Rate for a review means the relevant Indicator Rate for the previous review except for the first review after Commencement where the Base Indicator Rates are as in column 3 of Part 3.

CPI Indicator Rate for a review means the ABS 6401.0 Consumer Price Index - Table 1: (Series ID A2325846C - Index Numbers; All Groups; Australia) current as at the first day of the Year in which a review is being conducted.

DP Year means the 12 month period commencing 1 October in any year

Fuel Indicator Rate for a review means the value of the daily weighted average Terminal Gate Price over the previous Year, in dollars per litre, of Diesel in Sydney as published by the Australian Institute of Petroleum (AIP), minus the GST, minus the 70% of the On Road Fuel Tax Credit Rate (ORFTC), minus 30% of the Off Road Fuel Tax Credit Rate (FFTC), rounded to five decimal places.

Indicator means an Indicator set out in column 1 of Part 3

Indicator Weighting means the weighting given to an Indicator for the purpose of calculating the weighted movement across all Indicators during a review more particularly being the weighting set out in column 4 of Part 3.

Product Price Movement for a Year for a particular girder grade means the movement (expressed as a percentage) over the Year in the aggregate of the products of:

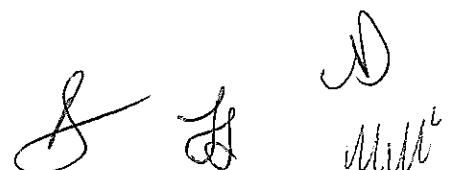

- (i) the movement (expressed as a percentage), over the Year, in the weighted average prices for each sawn timber product identified in the Standard Product Distribution Table; and
- (ii) the percentage of the relevant sawn timber product set out in the Standard Product Distribution Table for the particular girder grade;

where:

- (iii) the relevant figures to establish the movement referred to in (i) are the figures established by the Timber Market Survey which last occurred before the end of the DP Year compared to the figures established by the Timber Market Survey which last occurred before the commencement of the DP Year;
- (iv) the weighting by volume of weighted average prices referred to in (i) is established by the Timber Market Survey; and
- (v) the Standard Product Distribution Table is the table current at the time of the Delivered Price review;

Repairs, Maintenance and Other Indicator Rate for a review means the ABS 6401.0 Consumer Price Index - Table 1: (All Groups CPI - Index Numbers; weighted average of eight capital cities) current as at the first day of the Year in which a review is being conducted.

Species Percentage for a DP Year for a species group means the percentage of the total volume of Timber supplied under this Agreement in the Year that was comprised by the species group.

ATTACHMENT 1

Standard Product Distribution Table means a table prepared by Forests NSW and amended from time to time by Forests NSW after consultation with the Company and other NSW processors being:

- (i) a table that sets out the relative proportions (expressed as a percentage) of the major sawn timber products that can be reasonably expected to be produced from each grade of hardwood sawlogs; where
- (ii) the relative proportions are determined by Forests NSW (acting reasonably) on the assumption that the sawmilling industry will implement best practice in processing productivity and adjust to meet market trends in demand for timber products; and
- (iii) determined by Forests NSW on information obtained by Forests NSW from the Timber Market Survey, as well as Forests NSW' broader understanding of best practice and market trends obtained from other sources.

The Standard Product Distribution Table is set out below;

Product	Weighting Durability Class 1	Weighting SG	Weighting BBT	Weighting Durability 2 and others
Paling	5%	4%	4%	5%
Pallet	5%	4%	4%	5%
F11	20%			
F14			3%	3%
F17			7%	7%
F27	10%	20%	45%	30%
Flooring Low Feature	30%	40%	13%	30%
Flooring Medium Feature	20%	25%	19%	15%
Flooring High Feature	10%	7%	5%	5%

Timber Market Survey means a third party survey conducted in January and July each calendar year of wholesale timber prices (exclusive of GST) of hardwood sawn timber products to resellers and re-manufacturers (inclusive of delivery charges to the resellers/re-manufacturers premises) in NSW, Queensland, and Victoria that is ascertained from a statistically sound sample.

Wages Indicator Rate for a review means the ABS Labour Price Index Cat No 6345 Table 2b (Series ID A2599619A Quarterly Index ; Total hourly rates of pay excluding bonuses ; New South Wales ; Private and Public ; All Industries) current as at the first day of the Year in which a review is being conducted, rounded to two decimal places.

Year means a twelve-month period from July to June.

Part 2 : Methodology

The following describes the method of varying the Delivered Prices:

1. Ascertain the Indicator Rate of each Indicator current at the time of the review.
2. Ascertain the movement in each Indicator during the relevant review period by establishing the percentage increase (or decrease) in the Indicator Rate by comparing the current Indicator Rate (see clause 1) to the Base Indicator Rate. An example of the methodology is shown in the example below for Cost Item 4:
 - (a) Calculate the Product Price Movement for each species group as follows:
 - (i) Establish the movement in weighted average price for a sawn timber product over the relevant Year (ie the Year before the Year in which the review is being conducted). If for example the Timber Market Survey which last occurred before the commencement of the relevant DP Year establishes that the only 2 wholesalers selling Pallets sold Pallets for an average price of \$200.00 and \$250.00 respectively and that the Timber Market Survey which last occurred

ATTACHMENT 1

before the end of the relevant DP Year establishes that those wholesalers sold Pallets for an average price of \$210.00 and \$230.00 respectively and that they each had 25% and 75% of the surveyed market respectively then the weighted average price movement for Pallets over the relevant Year would be calculated as follows: $((210/200)-1) \times 0.25 + (((230/250)-1) \times 0.75) = \text{minus } 4.75\%$

- (ii) Multiply the weighted average price percentage movement established in accordance with (i) by the percentage for the relevant sawn timber product (eg Pallets) and a Species Group (eg durability class 1) set out the Standard Product Distribution Table. Following the Pallets example given in (i) and assuming the percentage set out in Standard Product Distribution Table for durability class 1 is 5% the calculation would be:
 $\text{Minus } 4.75\% \times 5\% = \text{minus } 0.234\%$
 - (iii) Repeat the process set out in (i) and (ii) for each of the other sawn timber products for a particular species groups identified in the Standard Product Distribution Table.
 - (iv) Aggregate the products of the multiplications referred to in (i), (ii), and (iii) for each species group identified in the Standard Product Distribution Table. Multiply these species group products by their relevant Species Percentages;
 - (v) Aggregate the products of the multiplications referred to in (iv). This aggregated figure is the Product Price Movement for the relevant Year;
2. Calculate the weighted movement across all Indicators by applying the methodology below:
 - (c) multiply the movement in each Indicator (see clause 2) by the weighting in column 4 of Part 3;
 - (d) the sum of the products of each calculation referred to in clause 3(a) above is the weighted movement across all Indicators.
3. The new Delivered Prices determined under this review mechanism are calculated by applying the weighted movement across all Indicators, from clause 3 above, to the current Delivered Prices as per the methodology in the example below:
 - (a) assume the weighted movement across all Indicators is +2.5%, and the existing Delivered Price is \$70.00;
 - (b) the new Delivered Price is $\$70.00 \times 1.025$ which equals \$71.75
4. For the purposes of the next Delivered Price review ascertain new column 4 Part 3 Weightings for each Indicator by multiplying the then current column 4 Part 3 Weighting for each indicator by the period movement in the relevant Indicator (see clause 2 above) and then dividing the result by the weighted movement across all Indicators (see clause 3 above). This will produce a new table of Indicator Weightings which sum to 100 percent. For example:
 - (a) assume Cost Item 1 movement (see clause 2 above) is +4.0%, the weighted movement across all Indicators is +2%, and the weighting for Cost Item 1 (from column 4 of Part 3) is 70%;
 - (b) then the new Indicator Weighting for Cost Item 1 is calculated by the formula;
 - (c) $70\% \times 1.04 / 1.02$ which equals 71.3%.
5. For the purposes of calculating the movement in the CPI over the previous Year the relevant figures are the figures last published for the June quarter of the last Year and the figures published for the June quarter in the Year proceeding that Year;
6. If a unscheduled review is requested in accordance with clause 17.5:
 - (a) for the purposes of establishing the Current Indicator Rates of any Indicator for the review the relevant figures will be the figures last published or otherwise available prior to the commencement of the review; and
 - (b) the Current Indicator Rates so established shall be the Base Indicator Rates for the next scheduled review under clause 17.2.

3. SCOPE OF AGREEMENT

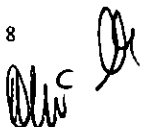

- 3.1 The Company carries on the business of the processing of hardwood timber and requires supplies of Timber to conduct its business.
- 3.2 From the Commencement Date State Forests will make available supplies of Timber to the Company and the Company must accept and pay for the supplies of Timber delivered by State Forests upon the terms and conditions set out in this Agreement.
- 3.3 The Company must pay State Forests the prices calculated in accordance with **clause 16**.
- 3.4 The State of NSW undertakes to ensure that State Forests has sufficient resources and the necessary capacity to make the Timber to be supplied under this Agreement available to the Company and will cause State Forests to perform its obligations as required by the provisions of this Agreement. The State of NSW will only be excused for any failure to perform its undertakings set out in this clause if prevented from doing so by Force Majeure. For the purposes of this clause the words 'act or omission of government or government department or instrumentality' in the definition of Force Majeure will be deemed to mean 'act or omission of a government or government department or instrumentality other than the government or a department or instrumentality of the State of NSW'.

4. DURATION OF AGREEMENT

- 4.1 This Agreement will take effect from the date of this Agreement and will operate until 31 December 2023 unless determined at an earlier date under a provision of this Agreement.
- 4.2 If the Company makes written application to State Forests and the Minister to renew this Agreement provided it is not in material breach of this Agreement at the time it makes the application, the Minister and State Forests must consult with the Company, and negotiate with the Company in good faith for the purpose of seeking to reach agreement in respect of the grant of a renewed Agreement and the terms and conditions of such a renewal. Nothing in this clause obliges State Forests or the State of NSW to grant a renewal of this Agreement.
- 4.3 The parties agree that in the event of an assignment of this Agreement as envisaged by **clauses 29 and 30**, the parties will execute a further agreement upon the same terms as this Agreement but including provisions incorporating an obligation in **clause 21** upon the Company or any assignee to comply with any conditions imposed under **clause 30** as obligations under the agreement (and it is agreed that non-compliance with such conditions will be a material breach for the purposes of **clause 27.2**).

5. ALLOCATIONS

- 5.1 From the Commencement Date and subject to **clause 6**, State Forests must make available to the Company each of the Allocations in each Year.
- 5.2 Despite any provision of this Agreement State Forests is not obliged to supply the Timber from outside the Area of Supply.
- 5.3 State Forests may supply the Timber from outside the Area of Supply provided:
- 5.3.1 State Forests must use its reasonable endeavours to supply the Timber it is required to supply under this Agreement from the Area of Supply;
 - 5.3.2 State Forests may supply the Timber from the Northern Region and elsewhere provided that State Forests may not supply the Timber from outside the Northern Region unless it has used its reasonable endeavours to supply it from within the Northern Region;
 - 5.3.3 the Delivered Price payable for the Timber from outside the Area of Supply must be calculated on the assumption that the Timber had been harvested and delivered from within the Area of Supply nearest to the actual point of harvest; and
 - 5.3.4 State Forests must act reasonably to ensure that the Timber supplied from outside the Area of Supply is suitable for the Company's business.
- 5.4 Part II of **Schedule 2** sets out indicative proportions of each of the Allocations which are to be made available from particular Regions for the term of this Agreement. The parties acknowledge the purpose of Part II is to provide information relating to likely sources of Timber but State Forests is not able to make any firm commitment that Timber will be available in the proportions or from the Regions indicated. The inclusion of this acknowledgment does not relieve State Forests of its obligations to make the Allocations available under, and in accordance with, this Agreement. State Forests will update this information from time to time if the indicative information provided ceases to be relevant for a period greater than 2 Years.
- 5.5 Part IV of **Schedule 2** sets out the Allocation Distribution Table being the relative proportions of each of the Classes State Forests expects to be produced from its harvesting operations in the Area of Supply during each Year. The parties acknowledge State Forests is not able to make any firm commitment that Timber will be available in the proportions indicated and in this regard the provisions of **clause 10.3** will apply. State Forests may, in consultation with the Company, review the Allocation Distribution Table during January each of 2008, 2012, 2016, and 2020. State Forest may by written notice to the Company issued as soon as practicable after the review, amend the Allocation Distribution Table from 1 July immediately following the review to reflect State Forests best estimate, on the basis of information available to it at the time of the review, of the relative proportions of each of the Classes State Forests expects to be produced from its harvesting operations in the Area of Supply during each of the following four Years.
- 5.6 Part VI of **Schedule 2** sets out the relative proportions of each of the relevant species State Forests expects to be produced from its harvesting operations in the Area of Supply during each Year. The parties acknowledge the purpose of Part VI is to provide indicative information relating to likely proportions of Timber but State Forests is not able to make any firm commitment that Timber will be available in the proportions specified. State Forests will update this information from time to time if the indicative information provided ceases to be relevant for a period greater than 2 Years.

- 5.7 State Forests must not unfairly or inequitably disadvantage the Company, in relation to other Type B Agreement holders, in a manner in which it supplies the Allocations, and the relative proportions of the Classes and species it is prepared to supply to the Company.

6. SPECIAL CONDITIONS REGARDING ALLOCATION 2

- 6.1 State Forests obligations to supply Allocation 2 each Year are qualified by this **clause 6**. This **clause 6** has no application to the obligations to supply Allocation 1.
- 6.2 Each Year in addition to its obligations to supply Allocation 1 State Forests must use its reasonable endeavours to supply the lesser of:
- 6.2.1 the volume calculated by the following formula:
 $AHQLP \times Co\%HQL \times HQL/TC$
Where:
AHQLP means the Available HQL Production for the Year;
CoHQL % means the Company's HQL Percentage Share; and
HQL/TC means the HQL/Timber Conversion Factor; and
- 6.2.2 the volume calculated by the following formula:
 $AHQSP \times CoHQS\% \times HQS/TC$
Where:
AHQSP means the Available HQS Production for the Year;
CoHQS% means the Company's HQS Percentage Share; and
HQS/TC means the HQS/Timber Conversion Factor.

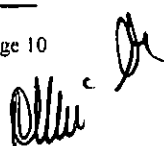

A worked example of the application of this formula is set out as **Schedule 9**.

- 6.3 Each Year State Forests must use its reasonable endeavours to ensure there is an Available HQL Production or an Available HQS Production sufficient that the Company is supplied with Allocation 2 in that Year.
- 6.4 No claim may be made against State Forests in relation to its obligations to supply Allocation 2 if it complies with **clauses 6.2 and 6.3**. Nothing in **clauses 6.2 and 6.3** requires State Forests:
- 6.4.1 to supply a volume of Timber in excess of Allocation 2;
- 6.4.2 to harvest Timber from the Area of Supply at a rate which compromises its capacity to harvest the Total Priority HQL Volume or the Total Priority HQS Volume from the Area of Supply each Year from the Commencement Date to 31 December 2023; or
- 6.4.3 to harvest Timber in breach of any law or written direction from the Minister regarding the supply to all Type B Agreement holders or in respect to the timber to be supplied under the Type B Agreements.
- 6.5 Unless otherwise agreed between State Forests and the Company all Timber delivered to the Company in a Year under this Agreement will be firstly applied in satisfaction of State Forests' obligations in relation to Allocation 1 until those obligations are satisfied and thereafter shall be applied in satisfaction of State Forests' obligations in relation to Allocation 2.

- 6.6 Prior to 1 April in each Year State Forests must use its reasonable endeavours to estimate the volume that will be calculated in accordance with **clause 6.2** for the following Year. The volume so estimated must:
- 6.6.1 be disclosed to the Company at the commencement of negotiations for the purposes of **clause 9.1**; and
 - 6.6.2 be included in the Annual Delivery Plan for the following Year as the indicative volume to be supplied in relation to Allocation 2 if it is less than Allocation 2.
- 6.7 If State Forests forms the reasonable opinion that supplying Allocation 2 in a Year (in addition to supplying Allocation 1) will compromise its capacity to harvest timber in the manner set out in **clause 6.4.2** it must as soon practicable after forming that opinion inform the Company accordingly. If requested by the Company to do so State Forests must as soon as practicable give the Company particulars in writing of the basis upon which State Forests formed that opinion.
- 6.8 If State Forests forms the reasonable opinion that supplying Allocation 2 in a Year (in addition to supplying Allocation 1) would involve a breach of any law or a direction of the Minister ("Ministerial direction") it must as soon as practicable after forming that opinion inform the Company accordingly. If requested by the Company to do so State Forests must as soon as practicable give the Company particulars in writing of the basis upon which State Forests formed that opinion and a copy of any Ministerial direction provided it will have no obligation to provide a copy of any Ministerial direction if directed not to do so by the Minister.

7. SHORTFALL

- 7.1 If for reasons other than Force Majeure or the default of State Forests or the State of NSW the Company:
- 7.1.1 takes less than 80 per cent of an Allocation for two consecutive Years during the term of this Agreement; or
 - 7.1.2 takes less than 70 per cent of an Allocation in any Year,
- State Forests may terminate this Agreement under the provisions of **clause 27**.
- 7.2 Subject to **clause 7.3** if for reasons other than Force Majeure, or the default of State Forests or the State of NSW, the Company fails in any Year ("FD Year") to take at least 90% of an Allocation and State Forests does not terminate this Agreement under **clause 7.1**:
- 7.2.1 the Company must pay State Forests within 90 days of State Forests' written demand to pay (which may not be served before the end of the FD Year) the sum of money equal to the difference between the price that would have been payable had the Company taken 90% of the Allocation and the price paid or payable for the quantity of Timber comprising the Allocation actually taken by the Company in that FD Year. In calculating the price that would have been payable had the Company taken at least 90% of the Allocation the relevant price for Timber not taken is the weighted average price for the Timber actually taken in the relevant Year. Any sum payable by the Company under this clause is payable as pre-estimated and liquidated damages and not as a penalty;
 - 7.2.2 if in the Year in which the Company makes a payment under **clause 7.2.1** (the SFD Year) the Company takes a quantity of Timber in excess of 90% of the Allocation, the amount payable by the Company for the quantity of Timber

- comprising the Allocation above 90% for that Year will be reduced by the amount of any sum paid under **clause 7.2.1**; and
- 7.2.3 the amount of any reduction allowed under **clause 7.2.2** must not exceed the sum that would have otherwise been payable for the quantity of Timber in excess of 90% at the price applicable for the SFD Year.
- 7.3 If the Company proposes to take less than 90% of an Allocation during a Year it may by notice ("Undercut Notice") to State Forests request State Forests to elect by notice to the Company ("Waiver Notice") to waive **clauses 7.1 and 7.2** or any of them, provided:
- 7.3.1 any Undercut Notice must:
- (a) be in writing;
 - (b) specify the volume of the Allocation intended to be taken by the Company in the relevant Year;
 - (c) be served on State Forests no later than 3 months prior to the commencement of the Year;
- 7.3.2 any Waiver Notice which State Forests in its absolute discretion elects to issue to the Company:
- (a) must be in writing;
 - (b) must be served on the Company not later than 1 month prior to the commencement of the Year
 - (c) may be limited to a specified volume or such other conditions as State Forests sees fit; and
 - (d) will bind State Forests for the purposes of the application of **clauses 7.1 and 7.2**, or any of them, in the manner specified in the notice.
- 7.4 Nothing in this Agreement prevents the Company from requesting State Forests waive **clause 7.2** in circumstances other than those set out in **clause 7.3**.
- 7.5 If the Company makes a payment under **clause 7.2.1** in respect of a FD Year the FD Year shall not be taken into account as a Year for the purposes of State Forests exercising a right to terminate under **clause 7.1.1** or **clause 7.1.2**.
- 7.6 For the purposes of this **clause 7**:
- 7.6.1 a reference to an Allocation shall, in relation to Allocation 2, be a reference to the lesser:
- (a) of Allocation 2; and
 - (b) the volume of Timber that State Forests is ready willing and able to supply to the Company in the relevant Year in accordance with **clause 6** in relation to Allocation 2;
- provided that if in any Year the volume referred to in **clause 7.6.1(b)** is less than 50% of Allocation 2:
- 7.6.2 **clause 7.2** shall not apply to that Year in relation to the Company failing to take Allocation 2; and
- 7.6.3 that Year shall not be taken in account as a Year for the purposes of State Forests exercising a right to terminate under **clause 7.1.1** or **clause 7.1.2** in relation to the Company failing to take Allocation 2.

8. METHOD OF SUPPLY

- 8.1 State Forests shall make Timber available by conducting Contract Harvesting and delivering the Timber to the Delivery Site.

DLW

- 8.2 If in any Year the Company requests State Forests supply it less than an Allocation, for the sole purpose of determining whether State Forests has complied with its obligations under this Agreement to supply that Allocation to the Company in that Year, State Forests will be deemed to have supplied that volume which it is ready willing and able to supply and not any lesser quantity which it actually supplies in accordance with the Company's request. Nothing in this clause will give State Forests any right to claim payment (except as provided in **clause 7**) for any Timber it is deemed to supply under this clause.

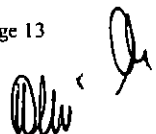

9. ANNUAL DELIVERY PLAN

- 9.1 No later than April in each Year State Forests and the Company must confer and negotiate in good faith to reach agreement on the Annual Delivery Plan for the following Year. In default of agreement by the end of the following May State Forests may determine the Annual Delivery Plan for the following Year. Any agreement or determination of the Annual Delivery Plan must recognise:
- 9.1.1 the need for the Company to stockpile Timber in some months to compensate for events preventing delivery such as wet weather preventing harvesting of Timber; and
- 9.1.2 the need for the Company to otherwise manage its mill site stockpiles to control inventory costs and minimise deterioration in the quality of stockpiled Timber.
- 9.2 State Forests must provide the Company with a copy of the Annual Delivery Plan for a Year not less than 21 days before the commencement of the Year.
- 9.3 The parties acknowledge that each Annual Delivery Plan contains indicative information and the parties must co-operate in the implementation of each Annual Delivery Plan and each must use their reasonable endeavours to comply with it.
- 9.4 If there is any inconsistency between any Annual Delivery Plan and this Agreement the provisions of this Agreement will prevail.
- 9.5 Agreement by State Forests to an Annual Delivery Plan or Monthly Delivery Schedule or amendment thereto which would result in the Company taking less than a volume of timber the Company is required to take under this Agreement in any Year will not constitute a waiver of any obligation imposed or right given by this Agreement.

10. MONTHLY DELIVERY SCHEDULES

- 10.1 Each Year State Forests will use reasonable endeavours to ensure that the volume of Timber to be delivered under the relevant Annual Delivery Plan is delivered substantially in accordance with the Monthly Delivery Schedules for that Year.
- 10.2 Each calendar month no later than 7 days prior to the next month the parties must confer and negotiate in good faith to reach agreement on the Monthly Delivery Schedule for the next month. In default of agreement the Monthly Delivery Schedule for the next month will be determined by State Forests provided:
- 10.2.1 State Forests will have due regard to the Company's requests; and

- 10.2.2 If the Company has a special requirement regarding volume in a particular month State Forests will, with due regard to the practicalities and the rights of other persons supplied with Timber by State Forests, use all reasonable endeavours to meet the Company's request.
- 10.3 State Forests must use its reasonable endeavours to ensure that each month it is ready willing and able to supply the Monthly Quantity in the Classes and proportions set on the Allocation Distribution Table. Despite any other provision of this Agreement if it complies with this **clause 10.3**:
- 10.3.1 State Forests has no other obligation in relation to the Allocation Distribution Table; and
- 10.3.2 no claim may be made against State Forests in relation its performance of this Agreement in relation to the Allocation Distribution Table.
- 10.4 At the commencement of negotiations referred to in **clause 10.2** State Forests must serve a notice in writing on the Company which:
- 10.4.1 specifies the Monthly Quantity it is ready willing and able to supply in the relevant month (the Base Monthly Quantity);
- 10.4.2 specifies the volume of each of the Classes that would be supplied during the relevant month if the Base Monthly Quantity was delivered in the proportions set on the Allocation Distribution Table.
- 10.5 If in the course of negotiations referred to in **clause 10.2** the Company is not prepared to accept the volume specified for a Class in accordance with **clause 10.4.2** during the relevant month it must state that fact in a notice in writing to State Forests served during the course of those negotiations.
- 10.6 If the Company serves notice in accordance with **clause 10.5**:
- 10.6.1 the Company shall not be entitled to a supply during the relevant month of any Timber in the Class identified in the notice;
- 10.6.2 the Monthly Delivery Schedule for the relevant month may be determine by State Forests so as:
- (a) to give effect to **clause 10.6.1**; and
- (b) to provide for a Monthly Quantity equivalent to the Base Monthly Quantity less any volume specified in accordance with **clause 10.4.2** for the Class identified in the notice;
- 10.6.3 any volume specified in accordance with **clause 10.4.2** for the Class identified in the notice (the "Forfeited Volume") shall:
- (a) be deemed to have been supplied by State Forests in part satisfaction of its obligations under **clause 5.1**;
- (b) be deemed to have been taken by the Company for the purposes of **clause 7.1**;
- in the Year in which the month associated with the Forfeited Volume occurs.
- 10.7 Nothing in **clause 10.6** entitles State Forests to claim payment for the Forfeited Volume or any part thereof under any provision of this Agreement except to the extent any part or whole of it is subsequently supplied by State Forests and accepted by the Company in the same month in which the Forfeited Volume arose.
- 10.8 If State Forests or the Company wishes to vary a current Monthly Delivery Schedule, it must notify the other party as soon as practicable and State Forests and the Company

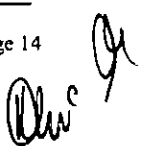

must negotiate in good faith to reach agreement on an amended Monthly Delivery Schedule. In default of agreement the original Monthly Delivery Schedule shall apply.

11. AMENDMENT OF ANNUAL DELIVERY PLAN OR MONTHLY DELIVERY SCHEDULES

- 11.1 From time to time during the term of this Agreement the Company may request State Forests, by notice in writing, to consider any modifications or change to an Annual Delivery Plan which the Company believes is necessary to enable or facilitate the Contract Harvesting of any Timber under this Agreement. If State Forests is satisfied that the requested modification or changes are necessary and reasonable, with due regard to the practicalities and the rights of other persons supplied with Timber by State Forests, State Forests must amend or vary the Annual Delivery Plan in the manner requested by the Company.
- 11.2 If State Forests considers a modification or variation of an Annual Delivery Plan is necessary to enable or facilitate the Contract Harvesting of Timber under this Agreement, State Forests will consult with the Company in respect of the proposed modification or variation and take into account its views. After doing so it may modify or vary the Annual Delivery Plan to enable or to facilitate the Contract Harvesting. Nothing in this clause will relieve State Forests of its obligations under **clause 5.1**, as modified by **clause 6**.
- 11.3 Where any timber in a Compartment has been damaged or destroyed by fire, disease or other natural cause or access to a Compartment intended to supply an Allocation is otherwise prevented by Force Majeure, State Forests may, after consultation with the Company, amend any Annual Delivery Plan or Monthly Delivery Schedule as it deems necessary to facilitate Salvage operations or to adjust to the unavailability of timber in Compartments. Subject to Force Majeure nothing in this clause will relieve State Forests of its obligations under **clause 5.1**, as modified by **clause 6**.
- 11.4 State Forests must provide the Company with a copy of any varied Annual Delivery Plan or Monthly Delivery Schedule for the period to which it applies:
- 11.4.1 in the case of an Annual Delivery Plan or Monthly Delivery Schedule varied under **clause 11.3**:- as soon as practicable and in any event before the commencement of the period to which it applies; and
- 11.4.2 in any other case:- at least 28 days before the commencement of the period to which it applies.

12. DELIVERY

- 12.1 State Forests must effect delivery of Timber by delivering it:
- 12.1.1 to the Delivery Site; and
- 12.1.2 during the Delivery Hours and
the Company may not refuse Timber or fail to unload Timber delivered to the Delivery Site in accordance with this **clause 12.1** and substantially with the relevant Monthly Delivery Schedule and otherwise in accordance with this Agreement.
- 12.2 Except where the parties have agreed that State Forests' contractors will unload the Timber (in which case **clause 12.3** shall apply) the Company must:

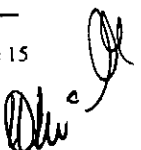

- 12.2.1 promptly unload Timber delivered to it in accordance with this Agreement with due regard to the practicalities and available unloading equipment; and
 - 12.2.2 ensure that all unloading operations carried out by it at the Delivery Site are performed in a safe manner in accordance with:
 - (a) any relevant code issued by New South Wales WorkCover or other relevant agency which replaces or exercises the functions carried out by New South Wales WorkCover; and
 - (b) the Company's safety policies for the Delivery Site.
- 12.3 If the parties have agreed that State Forests' Contractors are to unload the Timber State Forests must ensure that its Contractors:
- 12.2.1 promptly unload Timber for delivery in accordance with this Agreement with due regard to the practicalities and available unloading equipment; and
 - 12.2.2 ensure that all unloading operations carried out by them at the Delivery Site are performed in a safe manner in accordance with:
 - (a) any relevant code issued by New South Wales WorkCover or other relevant agency which replaces or exercises the functions carried out by New South Wales WorkCover; and
 - (b) the Company's safety policies for the Delivery Site.

13. TITLE AND RISK

- 13.1 Ownership of the Timber taken by the Company will pass to the Company on payment for the Timber.
- 13.2 Delivery will be effected and the risks of ownership of the Timber will pass to the Company when the Timber is unloaded in accordance with this Agreement.

14. SPECIFICATIONS

- 14.1 State Forests must make available or supply and the Company must accept any timber which conforms with the Specifications and is within other requirements of this Agreement.
- 14.2 Timber will be deemed to conform with the Specifications if the Timber is unloaded at the Delivery Site in accordance with this Agreement and that Company does not object to its failure to meet Specifications by notice in writing to State Forests within seven days of its delivery.
- 14.3 If the Company objects to timber in terms of **clause 14.2** it must set the timber aside for inspection. State Forests must arrange for the inspection of the timber by a suitably qualified State Forests officer, in company with a representative of the Company, within 7 days after receipt of the objection. The adjudication of the disputed timber must be dealt with in accordance with the Code of Procedure. Despite the foregoing the State Forests' officer must provide a written determination in respect of the adjudication of the disputed timber.
- 14.4 A decision of a suitably qualified State Forests officer that the timber is Timber, will (except in the case of manifest error) be accepted by the parties as final and binding on

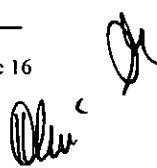

the parties. The decision of the suitably qualified State Forests officer must be based on State Forests' hardwood log measurement manual 1st January 2002 edition, as amended from time to time following consultation with the Company. If a party disputes the adjudication on the grounds of manifest error the provisions of **clause 28** shall apply to the adjudication.

- 14.5 If the suitably qualified State Forests officer decides that any timber does not meet the Specifications and the parties cannot agree on terms upon which the Company agrees to purchase the timber, State Forests must within 7 days remove that timber from the Delivery Site at its own cost.
- 14.6 If quantities of Timber which conform to the Specification, and which the Company is entitled to under this Agreement in a Year, are not available in the Year as a consequence of Force Majeure or in breach of this Agreement:
- 14.6.1 the Company and State Forests must within a reasonable period of time confer with a view to exploring the possibility of the Company accepting timber from categories of logs which are not within the Specifications, in replacement of the quantities of Timber that are not available. State Forests must give written notice to the Company as soon as practicable and in any event within 28 days of becoming aware of a likely shortage and will in the same notice provide an opportunity for the Company to meet with State Forests and provide particulars of:
- (a) the extent and consequences of the shortage;
 - (b) details of other timber which State Forests can supply by way of replacement timber ("Replacement Timber"); and
 - (c) the terms and conditions (including price) on which State Forests would supply, or make available such Replacement Timber; and
- 14.6.2 The Company will not be entitled to invoke the provisions of **clause 27.6.1** or to claim any damages for breach against State Forests unless both parties have in good faith made all reasonable endeavours to meet the Company's needs for Timber from Replacement Timber available from State Forests but outside the scope of the Specifications.
- 14.7 Replacement Timber supplied to the Company under the provisions of **clause 14.6** will be deemed to be Timber supplied under this Agreement.
- 14.8 At the request of the Company, State Forests must consult with the Company with respect to the terms and conditions (including price) upon which State Forests is prepared to supply or make available Replacement Timber.
- 14.9 The Company has no obligation to accept Replacement Timber on the terms proposed or at all.

15. DETERMINATION OF QUANTITY OF TIMBER

- 15.1 The method of determination of the quantity of Timber upon which the price is payable under this Agreement will be as set out in the Code of Procedure. Either party may propose amendments to the Code of Procedure. - 31.2 If requested by State Forests at any time during the term of this Agreement, the Company must submit to State Forests all records, information and data necessary to enable State Forests to assess whether the Company has satisfied the Value Added Criteria as have been adopted by the Minister. The Company must afford State Forests all reasonable

assistance and must provide all further details as may be reasonably required by State Forests to make an assessment under this clause.

32. AMENDMENT OF THE ALLOCATIONS

32.1 In this clause

'Implementation Date' for a Review means:

- (i) 1 July 2014 for a Review conducted in 2012; and
- (ii) 1 July 2019 for a Review conducted in 2017;

'Review' means a review referred to in clause 32.2.

References to an Allocation is a reference to the Allocation as it is at the time of the Review.

32.2 In the last 6 months of 2012 and 2017 State Forests must conduct a review to assess the timber resource available in the Area of Supply.

32.3 In conducting a Review State Forests must take into account:

- 32.3.1 its most recent inventory data and timber assessment models and methodology;
- 32.3.2 the regulatory restrictions relevant to Contract Harvesting in the Area of Supply current at the time of the Review; and
- 32.3.3 its yield schedules and management strategies which were applicable on 1 July 2004.

32.4 Pursuant to each Review State Forests must determine the Available HQL Resource and the Available HQS Resource for the period from Implementation Date for the Review until 31 December 2023.

32.5 At the conclusion of a Review and no later than 16 months prior to the Implementation Date for the Review State Forests must provide the Company with a written statement advising the Available HQL Resource and the Available HQS Resource calculated in the Review. Subject to clause 32.6 if:

- 32.5.1 the Available HQL Resource for the relevant period is less than the Total Type B Agreement HQL Volume for the same period; or
- 32.5.2 the Available HQS Resource for the relevant period is less than the Total Type B Agreement HQS Volume for the same period;

then State Forests may also give the Company written notice of an intention to amend the volume of the respective Allocations ('Allocation Amendment Notice') effective from the Implementation Date relevant to the Review until 31 December 2023.

32.6 An Allocation Amendment Notice may give notice of an intention to amend the Allocations within the following limits:

32.6.1 The total of any intended amendment to Allocation 1 and Allocation 2 may not exceed the volume ('the Deductible Volume') calculated by the following formulas:

- (a) if clause 32.5.1 applies but clause 32.5.2 does not:
$$DV = (1 - AHQLR/TTBAHQLV) \times (A1 + A2)$$

- (b) if clause 32.5.2 applies but clause 32.5.1 does not:

$$DV = (1 - AHQSR/TTBAHQSV) \times (A1 + A2)$$

(c) if both **clause 32.5.2** and **clause 32.5.1** apply:

$$DV = (1 - AHQLR/TTBAHQLV) \times (A1 + A2) + (1 - AHQSR/TTBAHQSV) \times (A1 + A2)$$

Where:

DV means the Deductible Volume

'AHQLR' means the Available HQL Resource calculated in the Review;

'AHQSR' means the Available HQS Resource calculated in the Review;

'TTBAHQLV' means the Total Type B Agreement HQL Volume calculated for the purpose of the Review;

'TTBAHQSV' means the Total Type B Agreement HQS Volume calculated for the purpose of the Review;

'A1' means the volume of the Allocation 1; and

'A2' means the volume of the Allocation 2.

32.6.2 If the Deductible Volume is less than Allocation 2, State Forests may give notice of an intention to amend Allocation 2 by reducing it by a volume not exceeding the Deductible Volume. In such a case State Forests may not give notice of any intention to amend Allocation 1;

32.6.3 If the Deductible Volume is greater than Allocation 2 State Forests may give notice of an intention to amend Allocation 2 by reducing it to nil and to amend Allocation 1 by reducing it by a volume not exceeding the difference between the Deductible Volume and Allocation 2.

32.7 Subject to:

32.7.1 consultation with the Company regarding the proposed amendments;

32.7.2 the approval of the Minister; and

32.7.3 State Forests' Allocation Amendment Notice being given not less than 16 months prior to the next Implementation Date;

each of the Allocations shall be amended, effective from the next Implementation Date, to be:

32.7.4 the volume specified in the Allocation Amendment Notice for the Allocation; or

32.7.5 such greater volume as State Forests may agree upon in writing to the Company following consultation with it.

32.8 In the course of the consultation referred to in **clause 32.7**:

32.8.1 State Forests must (unless directed otherwise by the Minister) offer the Company an amendment to this Agreement providing for State Forests to supply and the Company to accept as part (or whole) of an Allocation, timber (which is not then within Specifications) in a quantity equivalent to and instead of, the volume by which the Allocation Amendment Notice proposes to reduce the Allocations; and

32.8.2 State Forests and the Company must, if requested by the Company, negotiate in good faith to reach agreement on amendments to this Agreement which would give effect to that offer, instead of the amendments identified in the Allocation Amendment Notice.

32.9 An Allocation Amendment Notice may provide for Allocations of different quantities for different Years.

33. VARIATION

- 33.1 This Agreement comprises the entire understanding of the parties.
- 33.2 None of the provisions of this Agreement may be varied, waived, discharged or released either at law or in equity, unless by the express consent of the parties in writing.

SECTION 1: MEASURING AND MARKING OF LOG PRODUCTS

1.1 Measuring of Log Products

State Forests must ensure that Log Products which are sold by volume are measured in accordance with Table 1.

Table 1 : Log Measurement

PRODUCT	LENGTH	DIAMETER
Quota, smalls, salvage, veneer	Actual length in decimetres rounded down to the next whole decimetre	Centre diameter underbark to the backward centimetre
Standard poles	Nominal length in decimetres rounded down to multiple of 15 decimetres	Groundline diameter underbark in millimetres
Piles and girders	Actual length in decimetres rounded down to the next whole decimetre	Toe diameter underbark in millimetres
Non-standard export poles	Nominal length in decimetres	Groundline diameter underbark in millimetres

Salvage logs to some customers and pulpwood are the only products sold by weight.

1.2 Marking of Log Products

1.2.1 Log Branding

State Forests must ensure that all log products except non-standard export poles, are branded in accordance with Table 2 below:

Table 2 : Log Branding

LOG GRADERS ID	YES	YES Except for plantation salvage logs	YES if >30cms Butt diam NO if <30cms Buttdiam

Non-standard export poles require the length, species code and compartment number and the log graders ID branded on the pole.

Note that all logs, irrespective of quality and sales method (except for plantation salvage logs and pulpwood as indicated in Table 2) must be branded with the identification number of the log grader.

1.2.2 Species Code

State Forests must ensure that the species code is branded on logs in accordance with Table 3.

1.2.3 Log Product Code

State Forests must ensure that all logs are marked on one end using paint or crayon with the appropriate log product code in accordance with Table 4.

Table 4 : Log Product Code

PRODUCT	CODE
Quota	O
Veneer	Ø
Face Veneer	F
Poles	P
Piles	I
Export Poles	E
Girders	G
Graded Smalls/Thinnings	T
Sleeper	S
Salvage	Z
Pulpwood	DOT If >30cms Butt Diameter

In special cases, quota and small logs of individual species may be downgraded in some Price Zones where the net wood quality of the significant majority of logs is below that normally expected of that species.

Downgrading can only take place with State Forests prior approval and is Price Zone specific.

Downgraded logs are still graded as the same log product but to distinguish them, are marked with a "D". Downgraded logs should be marked with a "D" before the relevant product code, ie "DO" for downgraded quota and "DT" for downgraded small logs.

1.2.4 Log Marking Format

State Forests must ensure that logs are branded on one end in the format shown in Figure 1 below.

Figure 1 - Log Marking Format

** Pulpwood >30cms butt diameter only requires the product code and grader ID.

Handwritten signatures and initials.

All plantation salvage logs and pulpwood < 30cm butt diameter do not require branding. The product code for these logs must be painted on the end of the log.

Where a log is multigraded, ie two products in the one log, both sets of measurements including the product code are to be marked on the same end of the log.

Figure 2 - Log Marking Format – Multigraded Logs

SECTION 2: DELIVERY DOCKETS

2.1 Issue of Delivery Dockets

Delivery Dockets will be supplied by State Forests at State Forests' cost. Dockets will be printed in quadruplicate and will be sequentially numbered.

2.2 Completion of Delivery Dockets

State Forests must ensure that, prior to departure from the Loading Site, the following details will be completed on the Delivery Docket:

- i) Customer/Location
- Date
- Time
- Region
- State Forest
- Harvesting Plan No
- Age Class (where relevant)
- Compartment
- Stack (where relevant)
- Operation Type
- Product
- Grade
- Length (where relevant)
- Diameter (where relevant)
- Count
- Harvest , Load and Haulage Contractor
- Truck & Trailer Registration Number
- Truck Type
- Driver, Grader,

De
De

Gross, Tare and Net Weight (where weight sales are by truck scales) Tare weight will be predetermined at the commencement of each quarter on the basis of a certified weighbridge).

Where logs are to be accounted for by volume, the following additional details must be recorded for each log on the load:

- Length
- Diameter (refer to Table 1)
- Species Code (refer to Table 3)
- Product Code (refer to Table 4)

In the case of non-standard export poles, the length, the number of poles of that length and the product code must be entered on the Delivery Docket.

2.3 Receipt of Delivery

Upon receipt of a load of logs at the Delivery Site the Delivery Docket must be signed, dated and marked with the time of delivery by the Company's representative. This signature will verify the load was received and that the Gross Weight (where relevant) has been verified.

2.4 Company Copy

The Duplicate copy of Delivery Dockets will be retained by the Company.

2.5 Docket Errors

In the case of an error being made on the Delivery Docket mistakes must be crossed out and corrected with all changes initialled by the truck driver.

In the event of a Delivery Docket error being identified, (other than errors relating to log grade), the necessary amendment must be made on the Delivery Docket and such changes initialled by the Company's representative and the truck driver.

Errors relating to log grade are to be treated as a disputed log as these changes can only be made by a State Forests Officer.

2.6 Delivery outside of normal delivery hours

On the occasions where a mill representative is not available when the load is delivered and where specific arrangements have been made for delivery outside of normal delivery hours, the Contractor may unload the timber and leave the Duplicate copy of the Delivery Docket at a predetermined location.

These loads must be placed separately from other loads and clearly marked by the Haulage Contractor with the docket number, so as to enable its identification by a Company representative.

All details of the Delivery Docket will be completed by the Haulage Contractor except for the signature of the Company representative.

As soon as is practicable and no later than the 3.00 pm on the first working day following delivery a Company representative will sign the Mill copy of the Delivery Docket and fax it to the relevant Haulage Contractor. The Haulage Contractor will then be responsible for attaching the signed faxed copy, to the original Delivery Docket and forwarding it to State Forests.

Handwritten signature and initials in the bottom right corner of the page.

SECTION 3: SALE BY VOLUME

3.1 Sawlogs and Veneer logs

The volume of a sawlog is calculated using the formula below

$$V = L \times \Pi \times D^2 / 4$$

Where

V is volume in cubic metres

L is log length in metres rounded down to the next even decimetre

D is log diameter in metres

3.2 Poles

The volume of a pole is calculated using the formula below

$$V = ((L-2) \times \Pi \times ((D - (L-2) / 2 \times (0.0072 + (0.11 \times (L-8) / 1000))) / 2)^2) + (2 \times \Pi \times ((D + (0.02 + (0.6 \times (L-8) / 1000))) / 2)^2)$$

Where

V is volume in cubic metres

L is pole length in metres

D is the groundline at 20dms from the large end diameter in metres

3.3 Piles and girders

The volume of a pile and girder is calculated using the formula below

$$V = (((0.004167 \times L) + D) \times 0.5)^2 \times \Pi \times L$$

Where

V is volume in cubic metres

L is length in metres

D is small end diameter in metres

SECTION 4: SALE BY WEIGHT

4.1 Sale by Weight Using Truck Scales

Where logs are to be accounted for by weight as measured by truck scales, the following procedure must be followed:

4.1.1 Tare Weight

The tare weight of each truck/trailer combination delivering logs using the truck scale system will be calculated by State Forests from tare weight certificates provided by the Haulage Contractor. The tare weight certificates must be obtained from a weighbridge, which has current certification by the NSW Department of Fair Trading in the presence of a State Forests Officer

Haulage Contractors will be required to submit tare weight certificates to State Forests before commencing delivery and at quarterly intervals throughout the year.

Tare weights are to be certified measured using the normal running truck and trailer configuration (ie all bolsters, spare tyres and chains) and with a full tank of fuel.

4.1.2 Routine Weighing

Prior to the departure from the Loading Site each truckload of logs shall have the relevant details including the source of the logs recorded on a Delivery Docket. In addition the tare weight of the truck shall be recorded on the Delivery Docket.

The truck, following loading at the dump, is required to stop at the next available level and firm site, so that the gross weight can be determined. The time required before an accurate gross weight can be determined from the truck scales varies but generally is advised to be 5 minutes.

The gross weight and the calculated net weight shall then be recorded on the Delivery Docket. The site on which the gross weight is determined must be within 1Km of the log dump, unless otherwise negotiated with a State Forests Officer.

On arrival at the customer/location and prior to the commencement of unloading, the truck driver must request the Company to verify the gross weight recorded on the delivery docket by comparing it to that shown on the truck scales.

If the difference between the gross weight recorded on the Delivery Docket and the gross weight shown on the truck scales at the Delivery Site is greater than one percent (of the gross weight recorded on the Delivery Docket), the gross weight shown at the Delivery Site shall be recorded on the Delivery Docket. The initial gross weight recorded in the forest shall be deleted.

Any change to the gross weight resulting from the verification at the Delivery Site in accordance with the above will require the resultant net weight to be altered. Any such changes to the gross weight and net weight must be initialled by both the truck driver and a Company representative.

Where a full load of one product is not available the load may be made up with another Log Product. In this case an interim gross weight is recorded after the first product has been loaded and the final gross weight after both products have been loaded. Both the gross weights and the net weights of each product must be clearly indicated on separate Delivery Dockets. No more than two Log Products per load may be carried.

If one product is sold by log volume rather than weight, the measurements of each log of that product is to be recorded on a separate delivery docket.

4.1.3 Verification of Truck Scales and Audit Procedures

State Forests must ensure that each truck must obtain a weighbridge docket to verify the Gross Weight of one load each month. The weighbridge docket is to be attached to the original copy of the Delivery Docket.

Truck scale weights as read at the weighbridge which are inconsistent with weighbridge recordings for gross weight by more than one percent must have weighbridge dockets attached to the Delivery Docket of every subsequent load until the required level of accuracy is obtained.

In the event that the truck scales are not verified to be within one percent of the weighbridge reading the gross weight recorded by the weighbridge will be used for accounting purposes. Otherwise the weights recorded on the Delivery Docket will be used.

State Forests may direct any load to be checked on a certified weighbridge at any time. Where the variation in gross weight as measured by truck scales and as measured by public weighbridge exceeds +/- 1%, the certified weighbridge measurement will be accepted and the weighbridge docket attached to the original copy of the Delivery Docket for forwarding to State Forests by the Haulage Contractor.

4.1.4 Inoperable Truck Scales

If truck scales become inoperable or inaccurate, alternate methods of accounting for the load will be made between State Forests and the Company.

Alternate methods of accounting may include weighbridge measure or log volume measure.

4.2 Sale by Weight Using Weighbridges

The gross weight of the truck, trailer and load is to be recorded on an approved printed docket on arrival at the Delivery Site.

The tare weight of the truck and the trailer and the net weight of the load is to be printed on the docket referred to above following the unloading of the truck. The tare weight, gross weight and net weight are to be recorded on the Delivery Docket and a copy of the weighbridge docket is to be attached to the original copy of the Delivery Docket.

SECTION 5: DISPUTED LOGS

A disputed log is a log where the Company disagrees with either the log details or the grade of the whole or part of the log. A log may also become a disputed log if the log details are entered on the docket in error and this was not detected and corrected prior to the Haulage Contractor leaving the Delivery Site.

The Company, if disagreeing with the log details or the grade, must notify States Forests of the disputed log within three business days of the delivery of the log.

The disputed log must be set aside in a place that it can be readily and safely inspected.

A State Forests Officer will inspect the log within five working days of being notified.

Where the State Forests Officer determines that the disputed timber fails to meet the Specifications, or that there has been an error on the Delivery Docket, action as determined in Table 5 below will occur.

Any dispute over a decision made by a State Forests Officer regarding disputed logs, should be referred to the Regional Log Supply Manager for resolution.

The relevant figures for determining the variation in the CPI over the previous Year are the figures last published before the commencement of the previous Year and the figures last published before the end of the previous Year;

Harvesting Difficulty Classes means a number of different classes specified in State Forests' agreements with its Contractors, categorising differences in the complexity and difficulty of harvesting timber in Compartments, which provides a basis for different rates of remuneration for Contractors. There are four classes of Harvesting Difficulty Class identified by numbers 1, 2, 3, and 4 in ascending order of difficulty, as set out below;

Species Price Movement for a Year for a species means the movement (expressed as a percentage) in the weighted average prices established by the Timber Market Survey for sawn timber products manufactured from high quality logs of that species during that Year using the figures established by the Timber Market Survey which last occurred before the end of the Year compared to the figures established by the Timber Market Survey which last occurred before the commencement of the Year.

The relative weightings for each sawn timber product used to calculate the Species Price Movement for the year 1 July 2005 are set out below. Following consultation with the Company, each Year prior to Delivered Price Review State Forests will vary these weightings to reflect movements in processing productivity and market trends.

Species Groups	Sawn Timber Products									Total

Species Weighted Price Movement for a Year for a species means the Species Price Movement for the Year for the species multiplied by the Species Percentage for the Year for that species and expressed as a percentage;

Timber Market Survey means a survey of market prices for timber products conducted by State Forests from time to time.

Year means a twelve-month period from July to June.

A reference to Part 3 means a reference to Part 3 of this Schedule as amended from time to time in accordance with this Agreement.

PART 2 : METHODOLOGY

The following describes the method of varying the Delivered Prices using the tables set out in Part 3 of this Schedule.

1. Ascertain the level of each indicator in column 2 of Part 3, expressed in dollars and cents, percentage or as an index (as the case may be) current at the time of the review (the Current Indicator Rate). The Current Indicator Rate will be the Base Indicator Rate for the next review.
2. Ascertain the movement in each Indicator during the relevant review period by establishing percentage increase (or decrease) in the Indicator Rate (by comparing the Current Indicator Rate (see clause 1) to the Base Indicator Rate) and applying any weighting specified in column 2 to that percentage change. An example of the methodology is shown in the example below for Cost Item 1:

(a) Calculate the Product Price Movement as follows:

Assume the Company received Timber in 3 species groups during the relevant Year namely Durability Class 1, Durability Class 2 (Spotted Gum) and Durability Class 2 (Blackbutt) having Species Percentages of 33.3%, 53.3% and 13.3% respectively and the Species Price Movements for those species were +10%, -5% and +2% respectively.

(i) calculate the Species Weighted Price Movement for each of the species ie

Durability Class 1:- $0.333 \times +0.10 = +.0333$ ie +3.33%

Durability Class 2 (Spotted Gum):- $0.533 \times -0.05 = -0.02667$ ie - 2.67%

Durability Class 2 (Blackbutt):- $0.133 \times +0.02 = +.002667$ ie +.2%

(ii) Aggregate the total of the Species Weighted Price Movements ie 0.86%

Therefore the Product Price Movement is +0.9%.

(b) Compare the Indicator movement of Item 1 CPI to the Product Price Movement. The greater of those two Indicators movements shall be the relevant Indicator for Cost Item 1 for the purposes of the review. Assume CPI is 4% and the Product Price Movement is 0.9% and therefore CPI is the relevant Indicator.

For the 1 October 2004 review Cost Item One (Timber Products) ;

- **Will be varied for Girders by 7.5%.**

3. Calculate the weighted movement across all Indicators by applying the methodology below:
 - (a) multiply the movement in each Indicator (see clause 2) by the Indicator Weighting in column 4 of Part 3 (eg the + 4.0% for CPI from clause 2 above is multiplied by the relevant weighting, ie 70% for North East, with the product being 2.8%);
 - (b) the sum of the products of each calculation referred to in clause 3(a) is the weighted movement across all Indicators.

Q
Q

4. Calculate the Harvesting Adjustment Factor for the review for each Region. An example of the methodology is shown in the example below:
- assume the movement in Forecast Weighted Average Harvesting Difficulty Class for a Region is from 2.1 (for the previous Year) to 2.2 (for the Year in which the review is being conducted);
 - the change is therefore 0.1;
 - the Harvesting Adjustment Rate for the Year of the review is \$2.50 per Harvesting Difficulty Class;
 - 0.1 multiplied by \$2.50;
- Therefore the Harvesting Adjustment Factor for the Region is +\$0.25.
5. Calculate the Haulage Adjustment Factor for the review for each Region. An example of the methodology is shown in the example below:
- assume the movement in Forecast Weighted Average Haulage Distance for a Region is from 210 to 215 kilometres;
 - the change is therefore 5 kilometres;
 - the Haulage Adjustment Rate is \$0.13/m³km per Haulage Distance;
 - 0.13 multiplied by 5;
- Therefore Haulage Adjustment Factor for the Region is +\$0.65.
6. The new Delivered Prices for a Region determined under this review mechanism are then calculated by applying the weighted movement across all Indicators (from clause 3 above) for the Region to the current Delivered Prices and adding the Harvesting Adjustment Factor for the Region (from clause 4 above) and Haulage Adjustment Factor for the Region (from clause 5 above), as per the methodology in the example below:
- assume the weighted movement across all Indicators is +2.5%, the Harvesting Adjustment Factor is \$0.30 and the Haulage Adjustment Factor is \$0.65. and the existing Delivered Price is \$100.00
 - the new Delivered Price for the Region is $(\$100.00 \times 1.025) + \$0.3 + \$0.65$ which equals \$103.45.
7. For the purposes of the next Delivered Price review ascertain new column 4 Part 3 Weightings for each Indicator by multiplying the then current column 4 Part 3 Weighting for each indicator by the period movement in the relevant Indicator (see clause 2 above) and then dividing the result by the weighted movement across all Indicators (see clause 3 above). This will produce a new table of Indicator Weightings which sum to 100 percent. For example:
- assume Cost Item 1 movement (see clause 2 above) is +4.0%, the weighted movement across all Indicators is +2%, and the weighting for Cost Item 1 (from column 4 of Part 3) is 70%;
 - then the new Indicator Weighting for Cost Item 1 is calculated by the formula;
 - $70\% \times 1.04 / 1.02$ which equals 71.3%.
8. For the purposes of calculating the movement in the CPI over the previous Year the relevant figures are the figures last published before the commencement of the previous Year and the figures last published before the end of the previous Year;
9. For the purposes of calculating the movement in the Product Price Movement for a review the relevant Species Price Movements, Species Percentages, and Species Weighted Price Movements, will be those for the Year immediately before the Year which the review is being conducted.
10. In the first Delivered Price review in October 2004, the Base Indicator Rate for each of the indicators (other than those for Cost Item 1) will be the relevant rate which was applicable on the 1st July 2003.

THE SPECIFICATIONS FOR HQL SAWLOGS AND HQS SAWLOGS FROM 1 JULY 2005 WILL BE DETERMINED BY THE FOLLOWING PROCESS

1. By 1 October 2004 State Forests must convene a working group of State Forests, Type A WSA customers (or their representatives) and other parties (or their representatives) receiving HQL sawlogs and HQS sawlogs under written agreement from State Forests, for the purpose of developing revised Specifications for that timber ("the Working Group").
2. Any revised Specifications must:
 - Standardise specifications for HQL and HQS sawlogs for all State Forests north coast customers.
 - In aggregate not vary the total volume of timber currently defined as HQL and HQS sawlogs.
 - Define minimum diameter only in terms of small end diameter underbark.
 - Ensure that safety and operational efficiency of harvesting, haulage and timber processing operations are maximised.
